Dear Dr. Stevenson:

Does the volume described on the enclosed memorandum have any interest for you? I saw it while in Venice, and asked Mr. Wright of the Geographical Society if they cared to purchase it. He tells me that they have no funds for it. It looked worth while to me..

Yours ever,

Dr. E. L. Stevenson,

Dear Dr. Stevenson:

Can you refer me to some source which will give me data concerning Verrazano, and his connection with the discovery of the Hudson River? Do you know if there is an authentic likeness of him in existence. I should like to have a talk with you the next time you are down here and can conveniently stop.

Yours very truly,

Dr. E. L. Stevenson,
